

## **Fitzgerald-Ben Hill County Library Display Policy**

The Board of Trustees of the Fitzgerald-Ben Hill County Library understands the need for a designated space to display community information within the library. To fulfill this need, the bulletin board in the library's foyer will be used for this purpose. To maintain the integrity and presentation of this display area, all materials must be pre-approved by the Library Director or Chairman of the Library Board before posting. As the library strives to create a family atmosphere, only items suitable for this audience will be approved. Postings related to the library and library-sponsored events take priority over any other item. The library reserves the right to deny posting any item that does not meet the criteria listed below.

Criteria:

- 1) Advertisement or announcement from the library or for library-sponsored event
- 2) Advertisement or announcement from non-profit community organization(s)
- 3) Advertisement or announcement from local, state, or federal government entities or agencies
